There is nothing quite like a car. Wherever we
Turn this omnipresent menace (or should we
say "sensible means of transport") is with us.
But where would we be without one? Could we
really face our friends and neighbours without our
"Four-wheeled friend"? Even if it means our bank-
account is more often in the "red" than the "black" if
we see a car we like - we **MUST HAVE IT !**
In many societies a car is a status symbol which
says to everyone just how cool, trendy or well-off
the driver is. More CC's, expensive stereos or funky
add-ons all add up to create our own personal
advertisement. Being different or innovative is
Cool, too.

There is nothing so widespread like a car. Where ever
you look you bump into that "menace",
that vehicle that we can't live without.
So why not making fun of it, when we decided that
we would use it even when we go to visit our neighbor.
Even if our bank account is not something to be proud of,
we will buy one and show our neighbor that we can also
have a good one just like he can. Car is classifying our society.
We differ by size, horse power and accessories it has.
So what happens with the car when it gets old or
we had enough of it and we want something new?
Either it's going to become an old-timer and have a beautiful
retirement in a museum or we are going to recycle it
or maybe selfishly dump it where it does not belong.
This 3rd Exhibition is dedicated to all of those
who are dumping it where it does not belong like woods,
lakes or seas.

Protect and clean our environment from car wrecks and
send them to the 3rd International Zagreb exhibition.
